Attention to the details...

Construction

Each machine goes through a 5-point inspection:

1. *Hydrostatic test 1:*  
To review machine operation and record data at various inlet pressures.
2. *Disassembly and cleaning:*  
Each unit is meticulously disassembled and thoroughly cleaned.
3. *Inspection:*  
Each machine part and the machine body itself is inspected and details reported to the customer.
4. *Reassembly*
5. *Hydrostatic test 2:*  
Performance is certified in accordance to manufacturers data and performance recordings noted:
  1. Pressure flow values
  2. Rotational values
  3. Start and stall pressure ramping.

Assembly

It is believed that no other company, including the original manufacturer, reviews and re-certifies tank cleaning equipment to the level accomplished by Global Trading Services, Ltd.

Cost Benefits To The Customer:

- Reduced in-house labor costs.
- Reduced parts cost, as Global stocks the parts and maintains the inventory.
- Expert repair... over 40 years experience
  - Resulting in...
    - Extended machine life
    - Reduced machine replacement
    - Parts repaired, not replaced

Global is dedicated to servicing the customers needs, offering three levels of turn-a-round time:

- Standard : 3-5 days
- Priority : 1-2 days
- Express : 24 hours

Note: As with all repairs, timelines to completion are subject to availability of spare parts. However considering Global's parts inventory policy and the ability to remanufacture spares, our times to completion are the most competitive available.
